Naval Research Logistics

Contents

Volume 35, 1988

Issue 1, February 1988

Multiproduct Dynamic Lot-Sizing Model with Coordinated Replenishments
S. Selcuk Erenguc 1

Priorities in *M/G/1* Queue with Server Vacations
Offer Kella and Uri Yechiali 23

Minimizing the Sum of Weighted Completion Times of *n*-Independent Jobs when Resource Availability Varies over Time: Performance of a Simple Priority Rule
Julius Surkis and Ali Dogramaci..... 35

Markovian Multiechelon Repairable Inventory System
S. Christian Albright and A. Soni 49

Determining the Sample Size for a Hybrid Life Test Based on the Cost Function
Nader Ebrahimi..... 63

An Approach to Postoptimality and Sensitivity Analysis of Zero-One Goal Programs
George R. Wilson and Hemant K. Jain..... 73

A Hard Knapsack Problem
Chia-Shin Chung, Ming S. Hung, and Walter O. Rom..... 85

Optimal Block Replacement Policies with Multiple Choice at Failure
Daoud Ait Kadi and Robert Cléroux 99

A Decomposition Procedure for Convex Quadratic Programs
C. M. Shetty and Mohammed Ben Daya..... 111

An (*s,S*) Inventory System with Rest Periods to the Server
Jacob K. Daniel and R. Ramanarayanan..... 119

Approximating Nonstationary Two-Priority Non-Preemptive Queueing Systems
Michael R. Taaffe and Gordon M. Clark 125

Estimation from Binomial Data with Classifiers of Known and Unknown Imperfections
Norman L. Johnson and Samuel Kotz 147

Issue 2, April 1988

Production Lot Sizing Under Setup and Worker Learning
Kirk R. Karwan, Joseph B. Mazzola, and Richard C. Morey 159

Scheduling Tasks with Sequence-Dependent Processing Times
Lucio Bianco, Salvatore Ricciardelli, Giovanni Rinaldi, and Antonio Sassano 177

A Vertex-Closing Approach to the *p*-Center Problem
Joseph S. Martinich 185

A Localization Property for Facility-Location Problems with Arbitrary Norms
Henrik Juel and Robert Love 203

A Discounted Machine-Replacement Model with an Expected Future Technological Breakthrough
Tzvi Goldstein, Shaul P. Ladany, and Abraham Mehrez 209

On Estimating Population Characteristics from Record-Breaking Observations II. Nonparametric Results
Francisco J. Samaniego and Lyn R. Whitaker 221

A Simulation Study of the Efficiency of Empirical Bayes' Estimators of Multiple Correlated Probability Vectors
S. Zacks, S. S. Brier, and W. H. Marlow 237

The Use of Phase-Type Distributions in Inventory-Control Models
Paul Zipkin 247

Checking Policy for Deteriorating Multistate Systems
Janusz Karpiński 259

A Graphical Aid for Sensitivity Analysis of Estimated Regression Coefficients
Diane I. Gibbons and Gary C. McDonald 269

Waiting Time Distributions for Transient Bulk Queues with General Vehicle Dispatching Strategies
Hugo P. Simão and Warren B. Powell 285

Modeling the Performance of a Scanning Radio Communications Sensor
Mark M. Meershaert and W. Peter Cherry 307

List of Forthcoming Articles 316

Issue 3, June 1988

A Multi-Item EOQ Model with Inventory Cycle Balancing
Nicholas G. Hall 319

A Bayes Approach to Quality Control of an *M/G/*1 Queue
Lie-Fern Hsu and Charles S. Tapiero 327

Queueing Systems with Service Interruptions II
Awi Federgruen and Linda Green 345

A Multifaceted Heuristic for the Orienteering Problem
B. L. Golden, Qiwen Wang, and Li Liu 359

An Error Components Model of Cost Overruns and Schedule Slip on Army R & D Programs
Gordon W. Arbogast and Norman Keith Womer 367

Optimal Control of Production Process Subject to AOQL Constraint
Helmut Schneider, Colm O'Cinneide, and Kwei Tang 383

Game Theoretic Analysis of the Substitutable Product Inventory Problem with Random Demands
Mahmut Parlar 397

Optimization of Utility and Value Functions
Terry P. Harrison and Richard E. Rosenthal 411

A Nonidentical Parallel Processor Scheduling Problem
Nicholas G. Hall, K. Anthony Rhee, and WanSoo T. Rhee 419

Computer Software Development: Quality Attributes, Measurements, and Metrics
Yosef S. Sherif, Edward Ng, and Jodi Steinbacher 425

Transient Solution of a Finite-Capacity $M/G^{a,b}$ 1 Queueing System
M. J. Jacob, A. Krishnamoorthy, and T. P. Madhusoodanan 437

Resource Efficiency in Aircraft Production
Banani Dhar and Thomas R. Gulledge, Jr. 443

Issue 4, August 1988

Optimal Maintenance Policies for Constantly Monitored Systems
Alan P. Wood 461

Warranty Reserving
Charles S. Tapiero 473

Inspection Policies and Processes for Deteriorating Systems Subject to Catastrophic Failure
Süleyman Özekici and Talin Papazyan 481

Multiperiod Allocation of Limited Resources: A Minimax Approach
Hanan Luss and Donald R. Smith 493

A Heuristic Method for Facility Planning in Telecommunications Networks with Multiple Alternate Routes
İlker Baybars and Richard H. Edahl 503

Computation and Applications of Geometric Mixtures of Convolutions
Marcel F. Neuts 529

The Determination of Optimal Base-Stock Inventory Policy When the Costs of Under- and Oversupply Are Uncertain
Timothy J. Lowe, Leroy B. Schwarz, and Edward J. McGavin 539

Visibility Probabilities on Line Segments in Three-Dimensional Spaces Subject to Random Poisson Fields of Obscuring Spheres
M. Yadin and S. Zacks 555

New Purification Algorithms for Linear Programming
K. O. Kortanek and Zhu Jishan 571

Partitioning and Balancing for the Assembly of Nozzle Guide Vanes in Gas Turbine Engines
Robert D. Plante, Timothy J. Lowe, and Richard T. Wong 585

Two Heuristics for the Economic Lot Scheduling Problem: An Experimental Study
P. C. Geng and R. G. Vickson 605

A Decision Support System for the Procurement of Military Equipment
Evan E. Anderson and Yu-Min Chen 619

Issue 5, October 1988

A General Age Replacement Model with Minimal Repair
H. W. Block, W. S. Borges, and T. H. Savits 365

Optimal Inspection under Semi-Markovian Deterioration: Basic Results
Armando Z. Milioni and Stanley R. Pliska 373

Optimal Inspection under Semi-Markovian Deterioration: The Catastropic Case
Armando Z. Milioni and Stanley R. Pliska 393

A Note on the Optimality Conditions for the Bilevel Programming Problem
P. A. Clark and A. W. Westerberg 413

Error Bounds for EOQ
Ram Rachamadugu 419

Backorders Optimization in a One-Warehouse N-Identical Retailer Distribution System
Ralph D. Badinelli 427

A One-Dimensional Infiltration Game
S. P. Lalley 441

Multiaction Maintenance under Markovian Deterioration and Incomplete State Information
Wallace J. Hopp and Sung-Chi Wu 447

An Algorithmic Proof of the Polyhedral Decomposition Theorem
Mustafa Akgül 463

An Assumption-Free Convergence Analysis for a Perturbation of the Scaling Algorithm for Linear Programs, with Application to the L_1 Estimation Problem
Hanif D. Sherali, Bradley O. Skarpness, and Buyong Kim 473

A Duality Model for a Generalized Minmax Program
Meena K. Bector, I. Husain, S. Chandra, and C. R. Bector 493

Location Strategies for Satellites' Orbits
Zvi Drezner 503

Design of a Two-Stage Screening Procedure Using Correlated Variables: A Loss Function Approach
Kwei Tang 513

Issue 6, December 1988

Editorial
Herbert Solomon 537

Introduction: A Special Issue on Multiple Criteria Decision Making
Stanley Zionts and Mark H. Karwan 539

Multiple Criteria Decision Making in the USSR: A Survey
Vladimir M. Ozernoy 543

Multicriteria Efficiency with Arbitrary Finite Sets and Cyclic Preferences
Peter C. Fishburn 567

Integrating Multiple Criteria Decision Making Models into the Decision Support System Framework for Marketing Decisions
Rajshekhar G. Javalgi and Hemant K. Jain 575

Utility Assessment Procedures for Polynomial-Exponential Functions
Peter H. Farquhar and Yutaka Nakamura 597

A Pareto Race
Pekka Korhonen and Jyrki Wallenius 615

An Approach for Solving Discrete Alternative Multiple Criteria Problems Involving Ordinal Criteria
Murat Köksalan, Mark H. Karwan, and Stanley Zionts 625

Entropy-Based Selection with Multiple Objectives
F. Hutton Barron and Charles P. Schmidt 643

The Uncertainty Sensitivity Index Method (USIM) and Its Extension
Duan Li and Yacov Y. Haimes 655

Fuzzy Versus Stochastic Approaches to Multicriteria Linear Programming under Uncertainty
R. Slowinski and J. Teghem, Jr. 673

Determination of Efficient Points in Multiple-Objective Location Problems
B. Pelegrin and F. R. Fernandez 697

Multicriteria Ranking of Spares Allocations
Radivoj Petrović, Aleksandar Šenborn, and Mirko Vujošević 707

Experience with Prototype Multicriteria Decision Support Systems for Pelagic Fish Quota Determination
Theodor J. Stewart 719

Author Index to Volume 35 735
